

I listen to K-LOVE throughout my day. I take care of my 2-yr old granddaughter and she's learning the positive messages this radio station has even at this age. The service this station provides is in the public interest because I truly believe that being able to focus on who God is every moment we listen to this music makes for better citizens. We have plenty of other stations that provide secular music and negative messages, please do not displace this station by an LPFM broadcaster.
